Languages: **Thai:** Native, **English:** Professional fluency, **German:** Basic (Telc B2 certificate)

## INTRODUCTION AND SUMMARY

---

**With 3+ years of experience in hospitality and a Bachelor's in Computer Science, I enjoy combining technical skills with guest service. My first role in the hotel industry inspired my passion for guest interaction and service excellence. I'm excited to build my career in the hospitality industry.**

## SKILLS

---

**Programming Languages:** HTML5, Python, JavaScript, C, C++, TypeScript

**Databases & Frameworks:** PostgreSQL, MySQL, MongoDB, React, Matplotlib, Flask

**Admin Tools, Version Control & OS:** MS Office, Git, GitHub, Windows, macOS

**Hotel Software:** Oracle OPERA PMS, Bart PMS, Amadeus PMS, Kaba Lodging, MICROS POS, OTA Systems (e.g., Booking.com, Expedia, Animod), Online Booking Management

**Soft skills:** Flexibility, Customer-Oriented, Problem-Solving Skills, Positive Attitude

## WORK EXPERIENCES

---

### Front Office & Reservation Support

May 2021 → Present

*Premier Inn Holding GmbH*

Berlin, Germany

- Organized and led the ground-floor team during shifts; hands-on work across all hotel operations—from front desk to back-office and administrative tasks.
- Managed guest reservations, modified bookings, processed cancellations and special requests via phone, email, and online channels.
- Processed check-in/check-out and handled invoices with a guest-first approach.
- Collaborated with service, housekeeping and bar teams to deliver seamless guest experience.

### IT Support

2020 → 2021

*Tech Combine Co., Ltd.*

Bangkok, Thailand

- Provided **first-level technical support** for hardware/software issues, including remote support, error diagnostics, and structured troubleshooting.
- Installed, configured, and maintained Windows PCs, printers, networking, VPN access, and user management via Active Directory.
- Handled support tickets within SLA targets and documented solutions in an internal knowledge base.

## PROJECTS

---

### Web Applications & Hotel Tools

- Developed browser-based tools for hotel operations and guest management.
- Used **HTML5**, **JavaScript**, **TypeScript**, and **CSV** for frontend logic and data handling. Integrated **Firestore**, **pdf-lib**, **Tesseract.js**, and external systems like **Opera PMS** and **Roboflow YOLO**.
- Example Projects: **DepatureLive (Reception Site)**, **DepatureLive (Housekeeping Site)**, **DepartureScheduler**, **CashDashboard**, **ChecklistAutomation**, **BookingSystem**, **QRcodeMaker**, **LanguageTrainer**, **MLCoinCounter**.

### Self-hosted Services & Infrastructure

- Deployed self-hosted services using **Docker Compose**, with persistent volumes, secure configurations, and custom port mappings.
- Used **MariaDB**, **MySQL**, and NAS-based storage for reliable orchestration and data persistence. Configured environments with SSL and user access for private, stable infrastructure.
- Example Projects: **Vaultwarden**, **Nextcloud**, **Ghost (CMS)**, **AdGuardHome**, **Homarr**, **EditorPDF**, **HomeAssistant**.

## EDUCATIONS

---

### Bachelor in Computer Science (GPA: 1.8)

2021 → 2023

*SRH Berlin University of Applied Sciences*

Berlin, Germany

### Bachelor in Engineering Management (GPA: 2.5)

2010 → 2015

*Thammasat University*

Bangkok, Thailand
